

LABORATORY SOLUTIONS

 **WEECOM**

COMPLETE LABORATORY WORK SPACES

We offer a range of specialized laboratory furniture, meticulously designed to withstand heavy use and resist harsh chemicals, all while maintaining style and elegance.

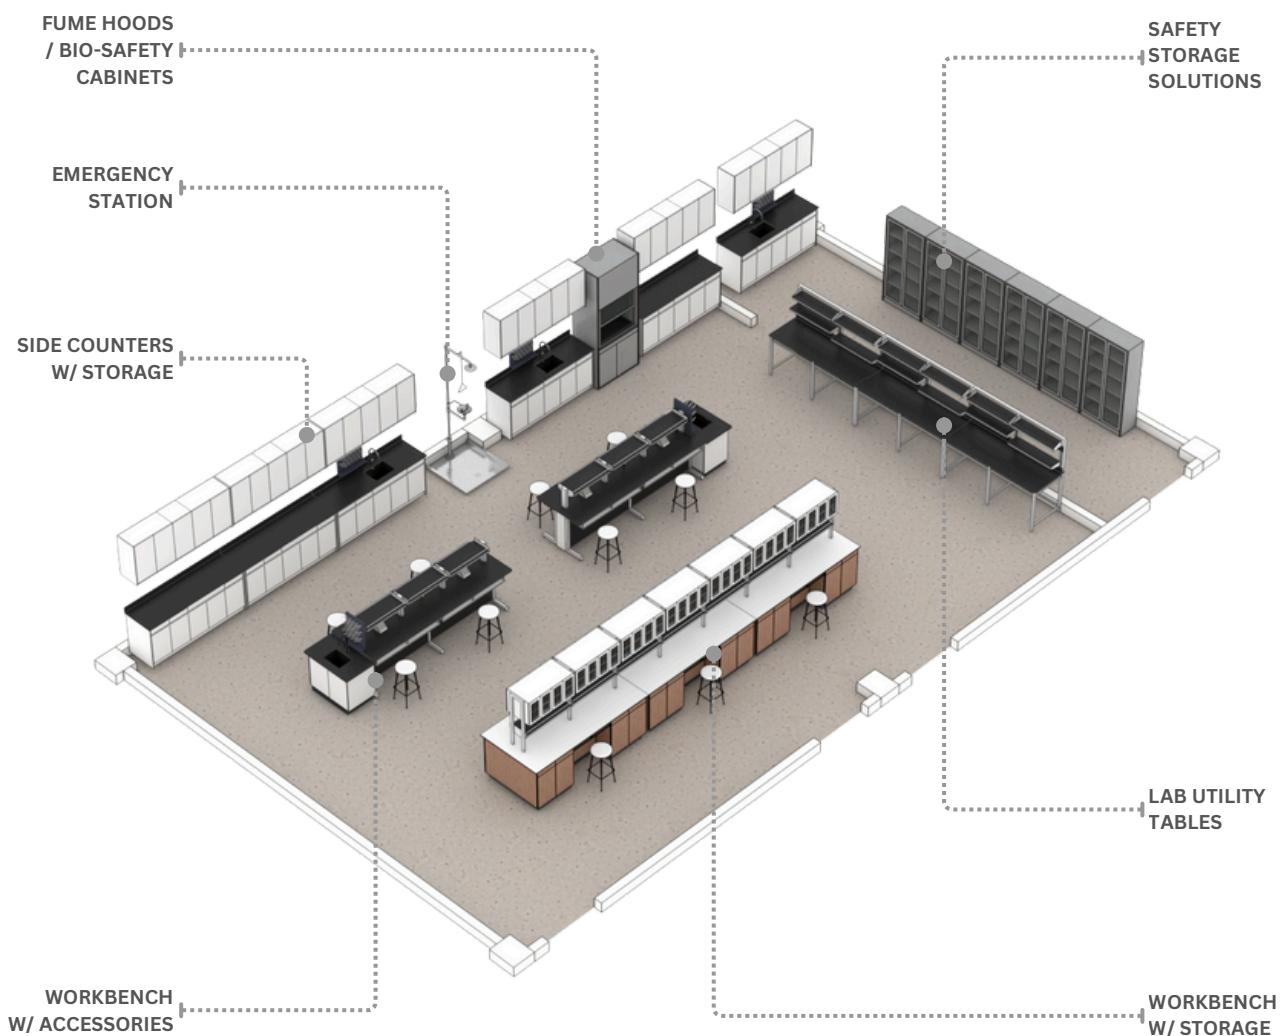

Dedicated to delivering high-quality products made from quality imported materials, selected for their durability, safety, and aesthetic appeal. Understanding the unique demands of laboratory environments, we create solutions that are both practical and efficient.

From lab benches to innovative storage options, every piece is designed to meet the industry standards, ensuring that your workspace is functional and inspiring.

APPLICATIONS

- Hospitals
- Schools and Universities
- Pharmaceuticals
- Medical Research
- Food Test Facilities
- Pathology Labs
- Forensic Labs
- Mining / Mineral Testing Labs
- Manufacturing Labs

The furniture/products shown in the illustration can be customized to meet specific design requirements, including dimensions, colors, materials, and finishes.

COUNTERTOP

LAB-GRADE SOLID CORE PHENOLIC RESIN

Lab-grade solid core phenolic resin is an excellent choice for worktops in laboratory furniture, fume hoods, shelves, and more. It is designed to withstand frequent exposure to chemicals, bacteria, and pollutants, making it ideal for scientific research institutions and testing facilities in industries such as chemistry, pharmaceuticals, food, cosmetics, and healthcare. This material is also suitable for hospital reception desks, nurse stations, healthcare offices, testing labs, wastewater treatment facilities, and even darkrooms for photography.

FEATURES:

- High Heat Resistance
- High Impact Resistance
- Bacteria & Microbe Resistant
- Corrosion Resistant
- Easy to Clean
- Scratch Resistant
- High Chemical Resistance
- Non-Porous
- Oil & Moisture Resistant
- Can be Easily Replaced

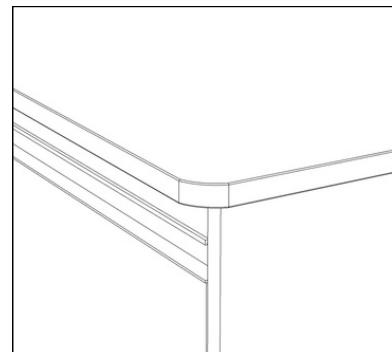

Black

Available Thicknesses: 12mm, 18mm, 20mm, 25mm
Industry Standard—Ideal for General Lab Worktops

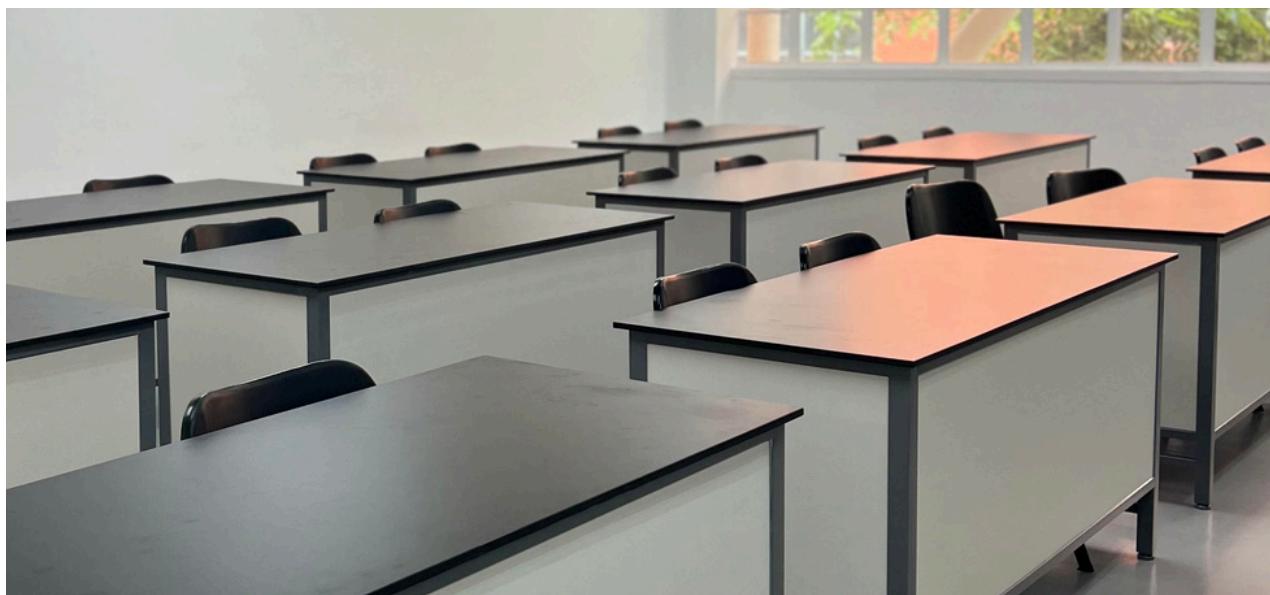

White

Available Thicknesses: 18mm, 20mm
Industry Standard—Ideal for Food Lab Worktops

Other Available Solid Color

Available Thicknesses: 18mm, 20mm
color availability may vary

CASEWORK / BASE FRAMING

A proper workspace requires adequate storage to function effectively. It should also be durable, aesthetically pleasing, and highly functional to maintain an efficient laboratory environment.

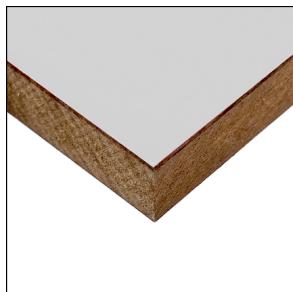

We customize cabinetry and framing to meet your specific requirements and design intentions, giving you the flexibility to mix and match material options.

CASEWORK OPTIONS:

- Laminated Board Cabinetry
 - 1. Marine Plywood
 - 2. Medium Density Fiber Board
 - 3. Melamine Faced Chipboard
 - 4. uPVC Board
- Steel Sheet Casework
- Tubular / Pipe Metal Base Framing (Black Iron, Galvanized, Aluminum, or Stainless Steel)

Marine Plywood
Melamine Laminated or HPL
Colors and Finishes are subject to availability

Medium Density Fiber Board
Melamine Laminated or HPL
Upgrade to moisture-resistant options available
Colors and Finishes are subject to availability

Melamine Face Chipboard
Melamine Laminated or HPL
Colors and Finishes are subject to availability

uPVC Board
HPL Laminated
Colors and Finishes are subject to availability

Lab Fittings

Enhance your laboratory's functionality with essential fittings to create a well-equipped and efficient workspace.

Streamline your lab operations with our fittings, providing the foundation for a safe and efficient working environment.

Lab Fittings List:

Lab Sink

Available in:

- Polypropylene** (Single or Double Bowl) w/ Fittings Included
- Stainless Steel 304** (Single or Double) w/ Fittings Included
- Fiber Glass** (Single Bowl) w/ Fittings Included

Lab Faucet

Available in:

- Solid Brass - Powder Coated** (Serrated Nozzle)
- Stainless Steel 304** (Aerated Nozzle)
- 3-Way Tap** (Serrated Nozzle)

Gas Tap

Available in:

- Solid Brass - Powder Coated** (Serrated Nozzle) Turret Base
- Dual or Single Outlet

Electrical Outlet Pedestal (Table Top)

Available in:

- Black Iron Steel Sheet - Powder Coated**
- Double Faced
- Single Faced

Reagent Racks

Available in:

Metal Tubular (Powder Coated)

Solid Phenolic Resin Framing

Custom-Design

Lighting

Available in:

UV Germicidal Lamp

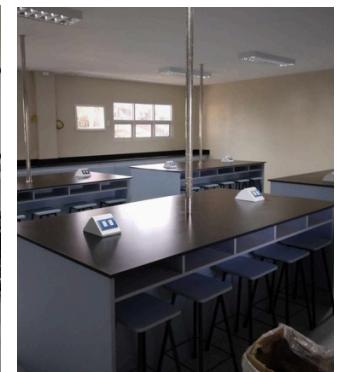

Black Light

Task Light (6500k)

Lab Fittings & Accessories

Additional Products

We offer everything from essential items like glassware, pipettes, and measuring instruments to sophisticated devices, office furniture, and storage solutions. All our products are designed for optimal accuracy and durability. Whether you're setting up a school lab or a professional research facility, our equipment ensures reliable performance for experiments, analysis, and testing across various scientific disciplines.

Laboratory Furniture

- Storage Cabinets
- Ventilated Bio-Cabinets
- Bio-Safety Cabinets
- Fume Hoods
- Lockers

Laboratory Fittings

- Emergency Station
- Eye Wash Station
- Gas Supply Piping Layout
- Gas Fume Detection & Emergency Shut Off System

Laboratory Equipment & Accessories

- Glassware
- Standard Lab Equipment
- Apparatuses
- Anti-Vibration Tables
- Standard Lab Machines
- Testing Equipment

Custom Office Furniture

- Office Desks
- Reception Counters
- Pantry Cabinets / Counters
- Office Tables
- Storages

School / Universities

- Library Furniture
- Audio-Visual Rooms
- Conference Rooms
- Computer Labs
- Classroom Furnitures

- Classroom Labs
- 1. Physics Lab
- 2. Chemistry Lab
- 3. Biology Lab
- 4. Homeroom
- 5. Culinary Lab

- Storage
- Lockers
- Demonstration Tables
- Speech Laboratory
